Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3662

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 22-63 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

With regard to claim 22, there is no disclosure of the instant application on the claimed feature such as: "with respect to cell coverage, and an antenna controller communicating with said sensor". Furthermore, there is no disclosure of signals changed by switched 43 are provided to controller 80.

With regard to claims 31, and 38, there is no disclosure of the instant application on the claimed feature such as: "a plurality of antenna controllers each communicating with corresponding sensors".

With regard to claims 43, and 54, there is no disclosure of the instant application on the claimed feature such as: "establishing a current position of said downtilt antenna by, and sending an antenna check command to said antenna controller".

With regard to claims 45, and 56, there is no disclosure of the instant application on the claimed feature such as: "transmitting an antenna check command".

With regard to claims 46 and 57, there is no disclosure of the instant application on the claimed feature such as: "transmitting a change tilt command".

Art Unit: 3662

With regard to claim 47, there is no disclosure of the instant application on the claimed feature such as: "an antenna controller communicating with said sensor".

Furthermore, there is no disclosure of signals changed by switched 43 are provided to controller 80.

With regard to claims 51, and 62, there is no disclosure of the instant application on the claimed feature such as: "an antenna controller memory connected to said antenna controller". Furthermore, there is no disclosure of signals changed by switched 43 are provided to controller 80.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dao L. Phan whose telephone number is (703)306-4167. The examiner can normally be reached on M-F 9:00-5:30.
